From Routledge : British Regionalism and Devolution: The Challenges of State Reform and European Integration (Regions and Cities) before purchasing it in order to gage whether or not it would be worth my time, and all praised British Regionalism and Devolution: The Challenges of State Reform and European Integration (Regions and Cities):

This contributors provide a range of perspectives on the increasingly central issues of state reform, European integration and British regionalism in the 1990s. Using case material, the contributors examine: the effects of state reform and European integration on British regionalism and the devolution debate; and the nature of recent central responses to the re-emergence of regional and devolution issues, with a particular focus on the recent policies of the Major governments and the policies of the Opposition parties. They also present some evidence which suggests that state reform and EC/EU developments have determined and accentuated important new trends in British regionalism, and underpin the plausibility of far-reaching regional and devolution reforms.
