Jay Pridmore : Building Ideas: An Architectural Guide to the University of Chicago before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Ideas: An Architectural Guide to the University of Chicago:

5 of 5 people found the following review helpful. A necessity for UC alumsBy BookmanAs a UC alum this architectural guide was a visual treat and introduction to much of the new architecture of the University. If you can't get back to campus very often this book is a necessity. A photographic treat as well.

Many books have been written about the University of Chicago over its 120-year history, but most of them focus on the intellectual environment, favoring its great thinkers and their many breakthroughs. Yet for the students and scholars who live and work here, the physical university—its stately buildings and beautiful grounds—forms an important part of its character. Building Ideas: An Architectural Guide to the University of Chicago explores the environment that has supported more than a century of exceptional thinkers. This photographic guide traces the evolution of campus architecture from the university's founding in 1890 to its plans for the twenty-first century.

About the Author Jay Pridmore is the author or coauthor of many books, including Chicago Architecture and Design, University of Chicago: The Campus Guide, Shanghai: The Architecture of China's Great Urban Center, and The American Bicycle. He has worked as a journalist in Chicago and has written extensively about architecture. Tom Rossiter is a photographer and filmmaker as well as a registered architect and fellow of the American Institute of Architects.
