Roger Greeno BA(Hons.) FCIQB FIPHE FRSA, Fred Hall : Building Services Handbook before purchasing it in order to gauge whether or not it would be worth my time, and all praised Building Services Handbook:

0 of 0 people found the following review helpful. Five StarsBy Anita HasliThis is a good reference for students doing undergraduate degree in quantity survey.0 of 0 people found the following review helpful. Five StarsBy Jennifer Dillion-Sirjuegreat

The Building Services Handbook summarises concisely, in diagrams and brief explanations, all elements of building services. Practice, techniques and procedures are clearly defined with supplementary references to regulations and relevant standards. This is an essential text for all construction/building services students up to undergraduate level,

and is also a valuable reference text for building service professionals. This new book is based on Fred Hall's 'Essential Building Services and Equipment 2ed' and has been thoroughly updated throughout. It is a companion volume to the highly popular textbook 'Building Construction Handbook' by Chudley and Greeno, which is now in its fourth edition. The must-have guide to building services Uses the visual style of the Building Construction Handbook to present key information, techniques and regulations in an accessible way A fully updates, expanded and re-designed text based on Hall's Essential Building Services

s for previous edition: 'Excellent, can be used at all levels -- for example 1st year NC to HNC. Particularly impressed by scope of topics and diagrams' Course Tutor NC/HNC Building, Liverpool 'Comprehensive coverage of fundamentals in a tried and tested format' College Lecturer 'The book has majority of information required by students in a brief format' Programme Manager, London 'Offers excellent coverage of the topics covered of the course' Head of Department From the Publisher This new book is based on Fred Hall's 'Essential Building Services and Equipment 2ed' and has been thoroughly updated throughout. It is a companion volume to the highly popular textbook 'Building Construction Handbook' by Chudley and Greeno, which is now in its fourth edition. This is an essential text for all construction/building services students up to undergraduate level, and is also a valuable reference text for building service professionals. About the Author Roger Greeno has gained extensive experience of the construction industry, commencing as a craft apprentice and progressing to a combined professional and academic career. This has included in excess of 25 years lecturing part and full-time in several colleges and universities, in parallel with ongoing business interests in construction consultancy and practice. Roger has examined for the City Guilds, BTEC/Edexcel, The University of London and the Chartered Institute of Building. His construction publications include: * Construction Processes, Level 1 (Pearson) * Building Construction, Level 3 (Pearson) * Principles of Construction (Pearson) * Building Services, Design Technology (Pearson/CIOB) * Mitchell's, Introduction to Building (Pearson) * Construction Technology (Pearson) * Advanced Construction Technology (Pearson) * Building Construction Handbook (Elsevier/Butterworth-Heinemann) * Building Services Handbook (Elsevier/Butterworth-Heinemann)
