The book not only offers a useful collection of tips on how to handle various problems one could have with the car. Also it teaches how to distinguish between serious problems and not so serious ones,as well as what questions one may want to ask a mechanic in case they show an outrageous list of deficiencies. Finally, the 2009 edition seems to be a reprint of 1992 edition as both have the same ISBN number.

Features hundreds of questions and answers about every aspect of car maintenance and repair. Coverage includes step-by-step repair procedures for the range of conditions afflicting cars; consumer information on purchasing accessories;

how to increase the longevity of vehicles by following essential maintenance practices; how to get malfunctions repaired properly and keep your mechanic honest, and much more. A detailed table of contents enables readers to easily locate whatever information they need.
