**Paula Uimonen : Digital Drama: Teaching and Learning Art and Media in Tanzania (Innovative Ethnographies)** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Digital Drama: Teaching and Learning Art and Media in Tanzania (Innovative Ethnographies):

The aim of this book is to explore digital media and intercultural interaction at an arts college in Tanzania, through innovative forms of ethnographic representation. The book and the series website weave together visual and aural narratives, interviews and observations, life stories and video documentaries, art performances and productions. It paints a vivid portrayal of everyday life in East Africa's only institute for practical art training, while tracing the

rich cultural history of a state that has mixed tribalism, nationalism, Pan-Africanism, and cosmopolitanism in astonishingly creative ways. While following the anthropological tradition of thick description, *Digital Drama* employs a more artistic and accessible style of writing. Dramatic, ethnographic details are interspersed with theoretical reflections and postulations to explain and make sense of the unfolding narratives. The accompanying website visualizes and sensualizes the stories narrated in the book, unfolding a dramatic world of African dance, music, theater, and digital culture.

About the Author Paula Uimonen is the Director of the Swedish Program for ICT in Developing Regions (Spider), Department of Computer and Systems Science, Stockholm University. She is one of the founding scholars of an emerging sub-discipline digital anthropology, which focuses on digital media and communication technologies in different social and cultural contexts.
