I am learning so many new techniques.1 of 2 people found the following review helpful. ExcellentBy SyllogismThis is the second book in his series of digital painting books. It seems like he took the first book and just added more specifics on how to achieve certain goals in regard to virtually every technical aspect he sees as critical to successful digital art. I believe it will be a very valuable resource as a reference. His art

work throughout the book is also gorgeous and inspirational to boot. Looking forward to the advanced techniques book now.
