Lee J. Ames : Draw 50 Vehicles: The Step-by-Step Way to Draw Speedboats, Spaceships, Fire Trucks, and Many More... before purchasing it in order to gage whether or not it would be worth my time, and all praised Draw 50 Vehicles: The Step-by-Step Way to Draw Speedboats, Spaceships, Fire Trucks, and Many More...:

0 of 0 people found the following review helpful. Cute book for creative boysBy angelxccGrandson loves this...0 of 0 people found the following review helpful. good starter bookBy lou jonesI like the whole series of these drawing books. The method is easy to follow. The reason I gave it three stars is because the author repeats the same drawings in different books. When I buy a new book by the same author, I want it to have new contents. I did not expect 'content sharing'.0 of 0 people found the following review helpful. Good beginner book.By grown up kiddoI bought this for my very talented 7 year old son. He spent hours drawing every picture in this book. It is great with step by step instructions. His only complaint was that it was limited... lacking in motorcycles. There is not much shading, but i

would probably include that in an intermediate book anyway.

Includes sections from two of the most popular Lee Ames titles: Draw 50 Boats, Ships, Trucks Trains and Draw 50 Airplanes. From the Trade Paperback edition.

About the Author LEE J. AMES began his career at Walt Disney Studios and taught at the School of Visual Arts in New York City and at Dowling College on Long Island, New York. He directed his own advertising agency and illustrated over 150 books, ranging from preschool picture books to postgraduate texts. A prolific author of more than 30 Draw 50 books, Lee Ames died at the age of 90 in June 2011. Excerpt. copy; Reprinted by permission. All rights reserved. This book will show you a way to draw boats, ships, trucks, trains, airplanes, aircraft, and spacecraft. You need not start with the first illustration. Choose whichever you wish. When you have decided, follow the step-by-step method shown. Very lightly and carefully, sketch out step number one... Step number two is added right to step number one, also lightly and also very carefully. Step number three is sketched right on top of numbers one and two. Continue this way to the last step.
