Carla's book will set it free!By Sandra StraitI've long felt that Carla Sonheim's method of drawing and painting aligned with the philosophy of Zentangle; The 'no mistakes, go with the flow, joy of creating' feel to her work seemed to me like it was something most tangles would enjoy, even though her technique uses more realism (in a very imaginary way, lol).For non-zentangles--if you doodle, if you fear the blank page, if you've always wanted to draw but felt you just couldn't--Carla's book is a wealth of inspiration for you. Full of fun exercises, it dwells on the joy of creating, of discovering the world around you in new ways, and of letting your imagination loose to crawl around on the page! Her imaginary animals are great fun to do with the kids, for adding an extra little personalization to gift tags and letters, and just plain to sit down and enjoy yourself where ever you happen to be (with a pen and paper)!Highly recommended for everyone!0 of 0 people found the following review helpful.
