I highly recommend this book for beginners By Imago3d They walk through step by step how to draw, and even though I do 3D and not 2D it's still a wonderful addition to my collection!! If you want to learn to draw furrries than this book is for you. It is very funny that I see people with icons that are literally traced out of this book. If not than they followed the step by step to drawing the heads. It is very funny. But I really love this book and it has taught me a lot in terms of placement of parts and other things as well. All in all it is a well rounded book and very good for beginners. 1 of 1 people found the following review helpful. Great for beginners By Draxin7I had pretty low expectations for this book, but I was pleasantly surprised that it was actually very informative and had easy to follow instructions and really explained a lot about furrries rather than just how to

draw them. My only complaint is it doesn't cover full figure drawing as much as I would have liked, however, this is dismissible due to all the other areas it covers. So if you're looking to start drawing furrries I would highly recommend this book as a first step but you might want to consider another later on for more advanced concepts. 0 of 0 people found the following review helpful. It's OkBy CustomerThere's a lot of useful information in here. It will help to improve your anatomy a bit as well as to practice some dynamics but personally I think that this book isn't a good starter for anyone interested in making anthro art. Maybe a further along beginner. It doesn't walk you through a lot of the smaller and important techniques and steps.

**ENTER THE ALLURING, MAGICAL, MYTHICAL WORLD OF THE FURRY KINGDOM** What Is A Furry? A furry is an anthropomorphic being; an animal with human characteristics. Furrries have fascinated artists going back thousands of years and as seen in the influx of animal/human characters into popular culture, interest today is at an all time high. And now for the first time all in one volume, you'll be able to take the next step to the outer limits of your imagination with the ultimate guide to drawing your own furrries; Christopher Hart's Drawing Fantastic Furrries. After a basic lesson in the fundamentals of comparative human and animal anatomies, you'll learn how to draw an entire menagerie of furry species, ranging from the adorable and charming super-cute furrries to the seductive and super-popular glamorous furrries to the warriors, wizards, vampires, and demons of the furry occult and fantasy realms. From the Trade Paperback edition.
