It's not an instruction book by any means and just has drawings of hands in various poses and the images definitely look dated. I think you could find a better book if you are serious about getting better at drawing hands0 of 0 people found the following review helpful. Not recommendedBy EfraThis book does not teach you how to draw hands.Este libro no te ensena como dibujar manos.It is only a drawing collection of hands with a minimum of detail.Es solo una coleccion de dibujos de manos sin gran detalle.I don't recommend this
