This particular book is general, general, and more general. One doesn't know what to do after purchase a cure item. Now need to buy another book with more specific instruction on how to use it according to your number. Online, one can find a number of contradicting tips as to how, where, and when to do anything. I guess this is good hook to sell more product, but how many feng shui books are enough? Once a year is reasonable to me, but several / multiple book every years that repeat

and mixed up old stuff with few added new stuffs. Not only the books, one needs cure trinkets which really cost a small fortune. One need to be rich to do the Lillian Too system. 10% of average / median household income or more to do the Too's. 0 of 0 people found the following review helpful. Valuable find!
