Alison Bowyer : Liz Hurley: Uncovered before purchasing it in order to gauge whether or not it would be worth my time, and all praised Liz Hurley: Uncovered:

1 of 1 people found the following review helpful. Superficial Book Reveals Little About Elizabeth Hurley By Catherine p LaViolette Though this book gives the 411 on Liz's early years I expected more. Book glossed over relationship with Hugh Grant and other friends and romantic partners. She's disciplined, determined, and knows how to cultivate fame. I guess her personality is what was missing. I'd heard she didn't want Grant after the scandal but she didn't want anyone else to have him either and basically broke up his relationship with Jemima Khan. THAT would've

been interesting! A good beach read but disappointingly superficial.

From 'That Dress' to the very public wrangle over the paternity of her baby son, Elizabeth Hurley is an international star and modern day icon, whose glamorous lifestyle is a source of endless fascination to the public. A skilled self-publicist, she has risen from being seen as arm candy to being a hot property in her own right, and is now a household name on both sides of the Atlantic. The wealthy 37-year-old actress and former Estee Lauder model now runs her own film company with ex-partner Hugh Grant. Liz Hurley Uncovered charts her extraordinary rise to the top of the show business elite.
