**Tess Whitehurst : Magical Fashionista: Dress for the Life You Want** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Magical Fashionista: Dress for the Life You Want:

7 of 7 people found the following review helpful. A quick and delightful fashion read. By RdPoodle Tess Whitehurst is an excellent writer on design elements, style, and magic. There are very few writers who specialize in this combination, and so I was eagerly anticipating the release of this book. I enjoyed it immensely. It contains real life fashion for real women, because beauty belongs to all women, not those of a given age, income, or body type. There is only one thing that I want to say that is not a criticism, merely an observation. I deliberately bought the printed book because most magic and design books have a lot of illustrations, which are easier to follow in a printed format. This one doesn't have illustrations or pictures, making it very appropriate for purchase in an kindle format. I love the convenience and space saving capabilities of my kindle and use it whenever possible. 1 of 1 people found the following

review helpful. Fashion Has Never Been So Fun! By Laurali Star I've always loved fashion but this book makes it magical and fun! I had actually, due to money problems, found myself losing some interest in fashion until I read this book. It inspired me to rethink my wardrobe in a way that upgraded me, as feeling good about yourself equals success and prosperity. My favorite aspect was our astrological signs have influence over our wardrobes and even the colors we're attracted to. I learned, you can also choose your outfits by the days of the week and whatever planet is aligned for that day, which I use religiously. I chose a fashion angel, or in my case a fashion fairy, which was a fun exercise. Reading this book quickly prompted me to go through my wardrobe, getting rid of clothes that no longer served me. By doing so, I made space for the new. Within a week, as if by magic, some new clothes showed up in my life. This book has a lot of fun activities that you can do to play with fashion. I really enjoyed reading it and will definitely be reading it again soon. It really opened up my mind about a lot of things and I learned so much about my style! Applying the knowledge has been fun and high-spirited. A great read for every woman or young girl, in my humble opinion!

But the years have gone by and I got into the "mom fashion slump." This book really got me thinking more about my wardrobe and how dressing better and taking more time dressing was in no way vain. It contains great advice on a variety of fashion topics, and is truly a joy to read.

Bring Out Your Inner Glamour Discover how fashion can help you be your most authentic self, attract good fortune, and manifest what you desire. When your beautiful inner and outer realities match, yours;ll revel in the magic of each day. Far from being superficial, fashion with intention can be a powerful, life-affirming practice. Build a wardrobe of items that enhances your unique attributes and personal magnetism. Select clothes, shoes, and accessories;including what you already own;that will make you look and feel your best. Put together empowering outfits for every occasion with simple guidance on everything from color, material, and pattern to gemstones, nail polish, and tattoos. Drawing on astrology, feng shui, psychology, and more, this fun, mystical fashion guide will help you express your true essence and activate your happiness and success. Praise: "Tess Whitehurst illuminates the deeper, more magical side of fashion with humor, heart, and brilliance, giving the reader the tools and inspiration needed to reclaim their everyday glamour." ;Melanie Marquis, author of *The Witch's Bag of Tricks* "Sure to be welcomed by the open-minded fashion lover." ;PUBLISHERS WEEKLY

From Publishers Weekly "In this satisfying and unusual style guide...Whitehurst examines the metaphysics of fashion and its potential as a personal art project...Though Whitehurst instructs readers to "stand like a celebrity" and "walk like a supermodel," it's obvious that readers are meant to think of themselves on the same playing field, not as inferior beings...sure to be welcomed by the open-minded fashion lover."
