Darren Di Leito, Darren Di Lieto : Mail Me Art: Going Postal with the World's Best Illustrators and Designers before purchasing it in order to gauge whether or not it would be worth my time, and all praised Mail Me Art: Going Postal with the World's Best Illustrators and Designers:

Lots of great illustration, very contemporary - but I wish the subject matter and treatments could have shown more variety. I think everyone invited to participate is a working artist of a certain age group - thus the homogeneity of the project. Nice though. 0 of 0 people found the following review helpful. MAIL! a phenomena in a book By Suzanne V. Ebeling-urban I submitted an envelope to this unique project over a year ago. I didn't hear back other than they liked my piece and received it. Flash forward, I see the book on and find my name in the table of contents. So I bought the book. This is a book one can thumb through over and over and not get bored. The project this book represents teaches artists not only how to think outside of the box, but how to market creatively, and it engages us in a communal experiment i.e. the resulting gallery show and publication in the book. It also elevates snail mail to an art form. My book is in a gallery where some of my paintings and prints are being showcased here in the States (Connecticut); it's captured the imagination of art buyers and one is interested in buying my envelope. More importantly, this book is teaching traditional art buyers there's new ways to enjoy art to hang-a great and hip way to bring generations together. I've also shared this book with a KE teacher at the elementary school where I work-(the day job) and it's captured the imagination of little ones as well. Suzanne Urban in CT

Art on a Journey It started with an idea Darren Di Lieto had: Challenge illustrators and designers to create works of art on packages, envelopes and postcards - then actually send them to him through the mail. The response was overwhelming, and Di Lieto posted photos of each piece of art on MailMeArt.com , so people the world over could follow the art on its journey from artist to post office to computer screen. The images are preserved in this book to inspire you as well. Inside, discover: 200 of the best pieces of mail art from the project, showcasing the variety and depth of the international illustration community. Interviews with 17 of the artists - including Jon Burgerman, Dan May, Kristian Olson, Michael Slack, Catalina Estrada and Jeff Miracola - that give insight into the work and the spirit of the project. Darren Di Lieto's firsthand experience of the challenges and joys of organizing this worldwide project, from storing the mail art to the daily anticipation of art in the mailbox. Mail Me Art began with an idea. It became a community. But it doesn't end there. Open this book, experience the array of mail art illustration, and become part of the journey.
