Alan Griffith, Paul Stephenson, Paul Watson : Management Systems for Construction (Chartered Institute of Building) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Management Systems for Construction (Chartered Institute of Building):

The book provides a concise focussed guide to the main management areas that are essential to the success of modern construction projects. The concepts, principles and applications in the seven main management areas that are essential to the success of construction projects are presented. It links in with The CIOB's Education Framework is recommended reading for The CIOB.
