Christopher Hart : Manga for the Beginner Chibis before purchasing it in order to gauge whether or not it would be worth my time, and all praised Manga for the Beginner Chibis:

5 of 5 people found the following review helpful. My 10 year old's favorite gift last Christmas. By narrowback slacker This was not the biggest or blingy-est gift under the tree last year, but it turned out to be my daughter's absolute favorite. She worked through it constantly, and we eventually followed up with Hart's more advanced manga technique books. If you have a child who likes to draw and is interested in anime or manga, I can't think of a gift that will get more use. 2 of 2 people found the following review helpful. A Good Choice By Patricia Coffin I got this for my granddaughter's birthday when she turned 13. She said she liked it. She's had it for 3 months now and she uses it. I was happy to find this art book for her. It's just like they said in the description, it's for beginners. She loves drawing girls with large eyes. 3 of 3 people found the following review helpful. Chibis for All By bystandersarah My daughter loves these Christopher Hart books. Now her dream is to learn Japanese and be a manga artist in Japan when she grows up! The books are well written with lots of pictures, examples and tips needed to get better at drawing this chibi style correctly. Chibi means small by the way. Chibis are smaller, cuter versions of a character. Take a villain, for example, draw them as a chibi and suddenly they are super cute instead of mean!

The ultimate guide to creating chibis! They populate manga with chunky bodies, oversized heads, and huge expressive eyes. They're schoolgirls and schoolboys, magical girls and mad scientists, fairies and fighter princesses, cyborgs and sci-fi secret agents, bikers and bad samurais, robots and rebel leaders. They've even got chubby pets and zany monster sidekicks! They're chibis! Excruciatingly cute, highly stylized, and beloved in all manga genres (fantasy, magical girls, shounen, anthro, sci-fi-, and more), without them, manga would barely exist. And now you can learn, step by step, how to draw virtually every chibi out there, how to "chibify" ordinary manga characters—and how to invent your very own designs! Covering facial expressions, those iconic manga eyes, costumes, character interaction, and story settings, *Manga for the Beginner Chibis* has it all. From the Trade Paperback edition.
