Christopher Hart : Manga for the Beginner Kawaii: How to Draw the Supercute Characters of Japanese Comics before purchasing it in order to gauge whether or not it would be worth my time, and all praised Manga for the Beginner Kawaii: How to Draw the Supercute Characters of Japanese Comics:

5 of 5 people found the following review helpful. Super OMG Cute!!!By CustomerI think the description of this book on is lacking, as you can't even see inside the book. If I hadn't held it in my hands I would have never known how good a book this is. It's a guide to those ridiculously cute characters that you see everywhere. And it lends its self to computer animation perfectly - unlike most of Chris Hart's books, this one has each drawing colored in for you and he shows how to use the colors to make something painfully cute even cuter. Great book - just wish my 9 year old would let me see it once in a while...2 of 2 people found the following review helpful. Drawing time with Auntie :)By RamonaMy Great Niece loves this book! She just turned 9. It is progressive in capabilities of drawing the characters both humans and animals. They are so cute! I also purchased a clipboard (I already had paper and pencils/colored pencils at the ready) the clipboard worked great for drawing while she looked at the examples in the book. It was a real special time we shared together, thank you!2 of 2 people found the following review helpful. This book is an excellent

edition to anyone who either likes looking at cute ...By Crystal L. This book is an excellent edition to anyone who either likes looking at cute kawaii art or wants to learn/practice drawing their own. Harts breakdowns and step-by-steps are very informative and detailed. One thing though is that if you are wanting more animal tutorials, this isn't the book for you. Hart focuses more on the human type kawaii and in-animate objects. It does include some kawaii animal step-by-steps, but not many. Over all it is a great book to use for tips and practice (or just to look at ^-^).

Got manga? Christopher Hart's got manga, and he wants to share it with all his millions of readers—especially the beginners. With *Manga for the Beginner*, anyone who can hold a pencil can start drawing great manga characters right away. Using his signature step-by-step style, Hart shows how to draw the basic manga head and body, eyes, bodies, fashion, and more. Then he goes way beyond most beginner titles, exploring dynamic action poses, special effects, light and shading, perspective, popular manga types such as animals, anthros, and shoujo and shounen characters. By the end of this big book, the new artist is ready to draw dramatic story sequences full of movement and life. From the Trade Paperback edition.

About the Author CHRISTOPHER HART is the world's bestselling author of drawing and cartooning books. His books have sold more than 7.4 million copies and have been translated into 20 languages. Renowned for up-to-the-minute content and easy-to-follow steps, all of Hart's books have become staples for a new generation of aspiring artists and professionals, and they have been selected by the American Library Association for special notice.
