Tony Phillips : Mastering Flash With Fujifilm X Cameras before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Flash With Fujifilm X Cameras:

3 of 3 people found the following review helpful. Adds little which is not in the manualBy LanternRougeVery disappointing. Inferior to the strobing website, despite some Fuji specific info, all of which is in the manual. In addition, there are formatting problems with figures and text in kindle version. Most importantly, the photos are weak and uninspiring.0 of 0 people found the following review helpful. Limitless frustrationBy W. J. WheatonTo begin with, this book would have been helpful if it would have told me how to set up my x-t2 camera! (Duh). It seemed to me that the initial setup might be important!0 of 0 people found the following review helpful. Five StarsBy Joseph R. KingExcellent book!

Master Fuji flash with confidence!If you are in any way uncertain about using flash with Fujifilm cameras, then this book will make it simple for you. Itrsquo;s Advanced Lighting 101 for Fujifilm ndash; including making manual flash

a breeze. This book is for ALL Fujifilm "X" camera owners who want to improve their use of flash - both on and off the camera. The tools and techniques discussed apply equally to shooting snapshots, weddings, portraits, travel - in fact any photography where changing the quality of light gets you the desired outcome. And you can try it risk-free - read on for details!
