Mark Crilley : Mastering Manga, How to Draw Manga Scenes before purchasing it in order to gage whether or not it would be worth my time, and all praised Mastering Manga, How to Draw Manga Scenes:

2 of 2 people found the following review helpful. Useful as hellBy MetalicagirlUseful as hell. Mostly you find books out there that focus on character designing etc but this is important too when drawing manga so I like it a lot. Thanks mark!
2 of 2 people found the following review helpful. Just Like Paneling: Straight and to the PointBy SmilinDynimiteMark Crilley, doesn't waist time show and telling the basics on Manga layout. The instructions and imagery are easy to follow. The artist also seasons the pages with his "Can-Do" attitude, easy going charm, and sense of humor.I would recommend this book for those who have a background in art and even have developed their skill-sets and style in drawing Manga characters. If not, this is still a great instructional guide on the basics of composing

layouts, using 1-3 point perspective for backgrounds, and even determining placement of sentences..... Or phrases..... And how they all fall across the page. All this to help keep your readers in the story and not puzzling over it's layout! 1 of 1 people found the following review helpful. Another great book from Mark Crilley By Stig Benning Another great book from Mark Crilley. Would have liked some more examples of scenes in perspective, but the basics of perspective is well covered. I would buy it again.

Mastering Manga, How to Draw Manga Scenes is an excerpt from Mastering Manga With Mark Crilley. Learn the actual process manga professional Mark Crilley uses to create manga scenes, with lessons on layout sequences and panels, and intermediate to advanced lessons on word balloons and storytelling that will have you making manga like a pro!
