**Matthew Carmona, Louie Sieh : Measuring Quality in Planning: Managing the Performance Process** before purchasing it in order to gage whether or not it would be worth my time, and all praised Measuring Quality in Planning: Managing the Performance Process:

This book deals with one of the current major debates in planning: how to measure the quality and effectiveness of the output of the planning process. It deals with issues of defining quality, public sector management, the use of indicators and the planning process. Although case study material is drawn from UK practice this topic is universal and the

authors include discussions of international practice and experience.
