Five StarsBy DevonOne of the few "How to draw manga"-esque books that are actually well made.5 of 5 people found the following review helpful. great book!By lazer22at first i thought this would be like every other how to draw book where it just shows 3 steps and bam finished piece but the artist goes into full detail showing exactly what you need to know to make your mechas look awesome!

Draw Futuristic Robots that Fly, Fight, Battle and BrawlWhen it comes to drawing robots, beauty is more than skin

deep - try armor deep. Slick surfaces and fancy mechanics aren't enough ... success depends on what makes your robot tick and MechaForce gears your imagination into overdrive! 33 step-by-step demonstrations show you how to render original, memorable robots, and bring them to life on the page. Learn how to: Draw believable humanoid robots by using tubes, pipes, nuts, bolts, hydraulics and other machinery in place of muscles and bones. Model robots after horses, spiders, dragons and other creatures. Give your robots personality, from sleek and athletic to thin, comical or feminine. Evoke an in-your-face sense of drama and action with extreme perspectives and different poses. Achieve the realistic look of reflective surfaces and other robotic textures. Compose dynamic scenes and establish moods with lighting. Don't short-circuit your robo-creations. From the basics of drawing to dynamic battle scenes, MechaForce will help you create devastating robots with a no-holds-barred attitude!
