From Routledge : Merchants and Marvels: Commerce, Science, and Art in Early Modern Europe before purchasing it in order to gage whether or not it would be worth my time, and all praised Merchants and Marvels: Commerce, Science, and Art in Early Modern Europe:

The beginning of global commerce in the early modern period had an enormous impact on European culture, changing the very way people perceived the world around them. Merchants and Marvels assembles essays by leading scholars of cultural history, art history, and the history of science and technology to show how ideas about the representation of nature, in both art and science, underwent a profound transformation between the age of the Renaissance and the early 1700s.

""Merchants and Marvels is wide-ranging and thought-provoking.."-Canadian Journal of History About the Author Pamela H. Smith is Associate Professor of History at Pomona College and the Claremont Graduate University. She is the author of The Business of Alchemy: Science and Culture in the Holy Roman Empire, winner of the 1995

Pfizer Prize in the History of Science. Paula Findlen is Professor of History and Director of the Science, Technology and Society Program at Stanford University. She is the author of *Possessing Nature: Museums, Collecting, and Scientific Culture in Early Modern Italy*, winner of the 1995 Marroro Prize in Italian History and 1996 Pfizer Prize in the History of Science.
