Advanced enough that I am having a great time with it. Their application recommendation (iOS, Android, Windows) is not only free, it rocks.2 of 2 people found the following review helpful. AWESOME!!!By HumitaThis is a great book for children and adults alikehellip;LOts of color pictures and detailed instructions. The last chapters are for the more experience directors. With practice and dedication you too can be an expert!!!I am glad I got this book because I can apply all this tricks to my other stop motion toys!!!Great job!!!1 of 1 people found the following review helpful. Perfect For Lego Animators!By Don ShockA great book on how to create Lego Animation. Lots of examples (it even has a link to a movie made for the book). Excellent job and a great reference book to keep on the shelf.
