Cons - not as good a standard as Graham Burgess's "Winning with the Smith-Morra Gambit" from 1994, which is near perfect as it's more complete and easier

to read and more comprehensive. So I'd still prefer the Burgess book and I read that more, despite being over a decade older. - there's a newer edition out, though that is NOT available on Kindle, so you may still prefer this old edition!  
Pros - detailed and up-to-date  
I'd actually suggest either doing what I've done - I bought and use the Burgess book (which is a must buy in my opinion) but buy this one too on Kindle as it's cheap OR buy the Burgess one and the new edition of this Langrock book in print but I doubt it'd worth the extra cost over the old Kindle edition.
