David Morley : The Nationwide Television Studies (Routledge Research in Cultural and Media Studies) before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Nationwide Television Studies (Routledge Research in Cultural and Media Studies):

This book brings together for the first time David Morley and Charlotte Brunsdon's classic texts, *Everyday Television*:

Nationwide and The Nationwide Audience. Originally published in 1978 and 1980 these two research projects combine innovative textual readings and audience analysis of the BBC's current affairs programme Nationwide. In a specially written introduction the authors trace the history of the original Nationwide project and clarify the origins of the two books.
