**Katharine T. von Stackelberg : The Roman Garden: Space, Sense, and Society (Routledge Monographs in Classical Studies)** before purchasing it in order to gage whether or not it would be worth my time, and all praised The Roman Garden: Space, Sense, and Society (Routledge Monographs in Classical Studies):

This innovative book is the first comprehensive study of ancient Roman gardens to combine literary and archaeological evidence with contemporary space theory. It applies a variety of interdisciplinary methods including access analysis, literary and gender theory to offer a critical framework for interpreting Roman gardens as physical sites and representations. The Roman Garden: Space, Sense, and Society examines how the garden functioned as a conceptual, sensual and physical space in Roman society, and its use as a vehicle of cultural communication. Readers

will learn not only about the content and development of the Roman garden, but also how they promoted memories and experiences. It includes a detailed original analysis of garden terminology and concludes with three case studies on the House of Octavius Quartio and the House of the Menander in Pompeii, Pliny's Tuscan garden, and Caligula's Horti Lamiani in Rome. Providing both an introduction and an advanced analysis, this is a valuable and original addition to the growing scholarship in ancient gardens and will complement courses on Roman history, landscape archaeology and environmental history.

"Katharine von Stackelberg's book on Roman gardens offers an engaging and welcome contribution to an emerging interest in cultivated ancient landscapes. . . any classicist studying gardens, landscapes, and even the Roman domus will find Stackelberg's contribution a must-read, even if the reader is not (yet) versed in cognitive or space theory. Stackelberg well demonstrates the multivalency, complexity, and critical social role of Roman garden spaces and the experience of them. In a sense, then, and in so doing, Stackelberg brings Roman gardens back to life."- Gillian McIntosh, San Francisco State University, in Bryn Mawr Classical 2010.07.56 About the Author Brock University, Canada
