Maria Peitcheva : Theodore Steele: 154 Colour Plates before purchasing it in order to gage whether or not it would be worth my time, and all praised Theodore Steele: 154 Colour Plates:

Theodore Clement Steele (1847 ndash; 1926) was an American Impressionist painter known for his Indiana landscapes. Steele was an innovator and leader in American Midwest painting and is considered to be the most important of Indiana's Hoosier Group painters. In addition to painting, Steele contributed writings, public lectures, and hours of community service on art juries that selected entries for national and international exhibitions, most notably the Universal Exposition (1900) in Paris, France, and the Louisiana Purchase Exposition (1904) in Saint Louis, Missouri. He was also involved in organizing pioneering art associations, such as the Society of Western Artists.
